

Art 116 Intro to Digital Media - Fall 2014

Creating your own web pages on Weebly

Due: Wednesday 9/3 at the beginning of class for discussion.

Objective: Know how to use Weebly to create new pages, new sections and new blogs on the group portions of the site and in your individual space. This is where you will submit most of your assignments and all of your projects during the course of the semester. We will have critiques and discussions based on this class website.

Task:

Add a photo to your page

- Add a title to your page (your name)
- Add a text bio to your page Create your own page under your name (the name pages have been set up for you).

Add two additional Pages to your own Page - “Logo” and “Blog”

- The page called Logo will be where you load your Logo Project prior to class on 9/8. You will also make a SECOND load on our class submissions page.
- The page called Blog will be where you make your SECOND submission of your blog post. (Blog posts also need to go on the group class blog.)
- Create Blog posts for FONTS discussion in both places.

When complete make sure to PUBLISH your website and go look at it to make sure your edits are there and they look the way you want them to.

Elements you need:

- The Internet, (*Duh*)
- Your email invitation to be an administrator on our class Weebly site. You must create your own login information.
- Weebly website: <http://art116fall2014sweet.weebly.com/>
- A photo (.JPG) for your personal page
- Personal BIO
 - Name & Email so others in the class may contact you
 - Something interesting about yourself that makes you unique as an artist or creator. Include background information, hometowns, personal interests, career goals, etc.
